

About The Teacher

My name is Krithin Visvesh and I will be the instructor for your Speech and Debate Class. I am a sophomore at Enloe High School and play sports like tennis and basketball for the school team. I have tons of experience in speech and debate starting in 7th grade with my TEDx talk for Carnage Middle School. I gave a speech on Breaking the Bubble of Barriers which sparked my interest in public speaking. Later, I participated in the TYE (TiE Youth Entrepreneurs) Global Competition and placed 2nd in the state by giving a business pitch along with my team. I decided to take my skills to a more structured and argumentative form, debate. I started a public forum in Freshman year and absolutely loved it. I attended local and national tournaments gaining a lot of knowledge on current events as I went along my journey. Now, I am continuing debate by participating in Congressional Debate, another style of debate which is more individualized. I will be dedicated to teaching whoever joins my course with a lot of passion and excitement for the end-of-course tournament!
